A MESSAGE FROM VICE PRINCIPAL:

It has been rightly said that "The goal of all education is to teach the child to think, not what to think".

At Sri Vijay Vidyalaya, we believe that this is fundamental and the school's effort has always been to instil the right values in students so that they develop a well-rounded personality and are ready to take on challenges immediately after they leave from the school gates. We have embarked on an uplifting and stimulating journey to provide our children with unique learning experience, teaching them to walk forward with a positive attitude, skills, confidence, sensitivity and responsibility.

The unparalleled and impressive height of excellence at which our school stands today proves that the school is strongly committed to achieving excellence in all areas, be it academics, sports, ethics or aesthetics.

In this modern world where cut-throat competition has become a part of life, it is extremely important that we teach our children to be competent enough to survive among others with these extraordinary abilities and emerge victorious from this challenging world.

We create and spread an atmosphere where every child receives love, dignity and acceptance. The trust in it lies in thoroughly combining modern and traditional approaches that are favourable to students.

Children here learn by exploring and experimenting with many extracurricular activities, providing students with optimal exposure and confidence. We focus on achieving our goals by providing an exemplary infrastructure for the development of a child's physical, mental and artistic abilities.

"Discipline, Courage, Excellence" act as our motto and watchword that will always inspire our children throughout their lives.

With regards,
Mrs. J. Vilma Roseline
(Vice Principal)

STUDENTS' CORNER:

Water's Journey

"Sunbeams dance in the sky so high,
Droplets fall, a gentle sign.
From leaf to leaf, they flow and play
Until they reach the ground, a new way.

The water's journey, is so pure and slow,
Peaceful chorus as it grows.
A gentle melody of light and sound,
Nature's beauty is all around".
