A MESSAGE FROM R&D HEAD:

“The function of education is to teach one to think intensively and to think critically. Intelligence plus character that is the goal of true education.” – Martin Luther King Jr.

The world of 21st century is changing at an accelerated scale. It is a challenge for educators to cope with the changing world order and prepare their students for the future. It has rightly been said by Margaret Mead that, “children need to be taught how to think, not what to think.”

The Management, Principal, Vice Principal and educators have done an outstanding job of guiding children in developing into well-rounded individuals through academics, extracurricular activities, and athletics. This objective is furthered by activities like the investiture ceremony, sports day, phonics courses, handwriting classes, storytelling competitions, drawing contests, and Onam and Krishna Jayanthi celebrations. Students' personalities will be significantly enhanced and they will grow into responsible citizens by realizing the importance of our culture.

Let's foster a community where creativity flourishes and collaboration ignites. Together, we can inspire each other to reach new heights. Here's to a year of discovery, resilience and unforgettable memories!

With regards,
Dr. P Kannappan
(R&D Head)
